

TECHOMAX

Wholesale of Consumer Electronics

Prepared by: Anna, TECHOMAX GmbH

TECHOMAX GmbH is a wholesale company based in Vienna, Austria. We specialize in consumer electronics, like smartphones, wearables and computer hardware.

We have a strong network of indispensable customers, suppliers and logistics providers all around the globe. Our aim is to keep serving the market, no matter how much it changes.

Products

Electronics

Our team can provide you with the best technology at the best prices. We pride ourselves in bringing exciting products to European markets and successfully distributing them to satisfied customers. Our policy is to sell only quality goods from the most reliable brands.

We have gone to great lengths to find trustworthy suppliers and securing contracts with ambitious manufacturers.

The landscape changes all the time and so do we. Write us an email or give us a call to learn about the most recent developments and the best way we can serve you.

Stock vs Pre-Orders

We keep a small selection of our most popular products in stock, but mostly work on the basis of pre-orders. That allows us to maintain a high standard of quality when it comes to the products we sell. It ensures that you get the best products at any given time—instead of whatever's left in our warehouse.

Why

A smooth deal

It may sound generic, but **knowing that we can help make the work of so many people more enjoyable and less stressing drives us to succeed.** There are inefficiencies everywhere, and we work to smooth them out by combining technology and know-how to be the best.

The satisfaction of all the people we come in contact with is our outmost priority. **We go out of our way to make working with us the simplest and smoothest experience in your career.**

Documentation

You close a deal, make a payment and then... Nothing. The supplier does not reply. They send you the goods, they might even send you a tracking number, but they forget to send you an invoice, the transportation documents, certifications and everything else that you need to please your customers and the authorities.

We find that irresponsible. **TECHOMAX is with you from the moment we send you a quote, until long after the deal is closed.** We provide you with everything you need and make sure to communicate it in an efficient way.

Let's talk

Efficiency is our business. Let's take the next step.
